

### Bearings

Available in Browning® 920 Series Mounted Tapered Roller and Browning® Mounted Ball.

### Belt Drives

Browning® belt drives provide one of the largest selections of V-Belts, Sheaves available. Complete line of V-belts, FHP and multiple sheaves.

### Bushings

Browning pioneered the SPLIT TAPER® bushing and also offers QD® and Taper Bore bushings as well.

### Roller Chain Sprockets

Choose from the world's largest selection of high-quality, shaft ready sprockets to solve all your application needs.

### Drive Tighteners and Idlers

Browning® offers a wide variety of drive tighteners and idlers. They provide the necessary means of take-up for applications with fixed centers.

### Torque Overload Devices

Browning® Torque Overload Devices help protect machinery from overloads or equipment jams.

### Shaft Mount Reducers

The Browning shaft mount reducers are enclosed helical gear reducers with a hollow output. They are mounted directly on the input shaft of the driven machine. They are supported by the shaft and torque arm arrangement or by a motor mount frame.

### Helical Concentric and Right Angle

This is a comprehensive offering of energy efficient, helical based enclosed gearing available as gearmotors and reducers. A diverse variety of shaft and mounting options are also offered.

### Bevel and Miter Gearing

Browning bevel right angle reducers providing ratio ranges from 1:1 to 3:1 depending on model and brand selected.

### Centerpivot Gearing

This range of worm and helical gearmotors are specifically designed for centerpivot and linear irrigation systems worldwide. Each unit is designed and nameplated for 3/50/380V and 3/60/460V at popular motor powers and RPM's.

### Open Gearing

Browning open gearing products including spur, miter, bevel and change gears.

### Couplings

Browning® couplings offer an extensive breadth of product available for many industrial applications. We also custom-design and engineer specific application
